Allowable Subject Matter

1. Claims 1-4,14-18,24,27-30 are allowed.
2. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicants' arguments, especially regarding Gupta. At best, the art of record, especially Gupta, sets forth in column 5 a functional unit being a cache with a single field 108 in register 106, not being capable of the cache configuring per the task attribute bits, as now claimed in the two remaining independent claims 1 and 15. The amended claims have overcome the provisional double patenting rejection, as the sets of claims no longer conflict. Amendments have also overcome all other outstanding objections and rejections. However, the patent number given in the amendment of 6,751,705 appears to be in error as it does not correspond to 09/932,651. The apparently correct patent number ends in "6" and should be carefully reviewed by applicants, and if correction is needed, be corrected via rule 312.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fritz M Fleming whose telephone number is 571-272-4145. The examiner can normally be reached on M-F, 0600-1500.
